EXPERIENCE

SqalaPay Pagamentos

Feb 2025 — Sep 2025

Front-end Developer

Remote

- Developed internationalized web applications with TypeScript, React, Next.js (next-i18next), Vite, Chakra UI and GraphQL (Apollo), managing state with Redux Toolkit and React Context.
- Implemented real-time communication for 3DS authentication in credit card transactions, improving security and preventing fraud.
- Developed a customizable product storefront and an interface for creating and editing products with image upload to AWS S3.
- Collaborated on the back-end (TypeScript) by connecting REST APIs to GraphQL BFF, bug fixes and small improvements.
- Ensured system quality by creating extensive tests with Playwright and monitoring with Datadog to debug issues.

Bornlogic

Aug 2022 — Feb 2025

Front-end Developer

Remote

- Led the development of the new platform's Business Center, being responsible for most of the functionalities.
- Collaborated on the new platform's micro-frontend architecture using Single SPA and webpack, which supported independent team development and contributed to customer retention.
- Led the development of the reusable component library with over 70 components, conducting rigorous code reviews and maintaining extensive documentation in Storybook.
- Performed integration with REST APIs using SWR, TanStack Query and state management with React Context and Redux Saga (legacy application).
- Improved platform stability by writing integration tests with Playwright and React Testing Library.

Mutual

Dec 2020 — Aug 2022

Front-end Developer

Remote

- Developed web applications with Create React App and Next.js in TypeScript, using Material UI.
- Developed mobile applications with React Native, using react-native-cli and Expo.
- Improved stability on web and mobile platforms by writing integration tests using Cypress and React Testing Library, while monitoring with Sentry to quickly identify issues.

EDUCATION

Universidade Federal Rural do Rio de Janeiro

Jan 2015 — Jan 2020

Economics

Seropédica, RJ
